

## **Grakon Opens Design Center in Michigan**

Grakon is pleased to announce the opening of its engineering and design center in Southeast Michigan. The new office is intended to strongly support the strategic growth plans of the Company. The staff located at the office will include Engineers, Designers and Program Managers.

Regarding the new office, Tony Pashigian, Vice President of Program Management and Engineering, said “The location of Grakon’s new design center will provide increased capabilities to serve our existing customers on the East coast and Midwest as well as support our strategic growth initiatives”.

Grakon is a leading global designer and manufacturer of custom interior lighting, exterior lighting, complex engineered and assembled molded trim components as well custom trim features such as nameplates and thresholds. Grakon supplies all major OEM’s production and tiered assembly locations throughout North America and Europe. Grakon has been designing and manufacturing LED lighting for more than 10 years. Most recently we have developed a strong focus in customizing the efficient use of LED lighting technology.

Grakon is headquartered in Seattle, Washington with offices in Eindhoven, Netherlands, Dongguan, China, Greensboro, N.C. and Farmington Hills, Michigan.
